

A Tremendous Advantage When Purchasing an EverRest Elite Series Home Comfort System...

It's installed by an EverRest ExtremeCare® Performance Dealer. You can purchase the best equipment in the world but if it isn't installed properly it can cost more to operate than that old worn out system you replace. Over the life of a new air conditioning and heating system

an inferior installation could, in fact, cause you to sacrifice over \$5,000 in utility savings that might have been realized with an installation from an ExtremeCare® Performance Dealer. And this doesn't even take into account how a poor installation can reduce the life of your new system, reduce the comfort and performance and cause unnecessary breakdowns.

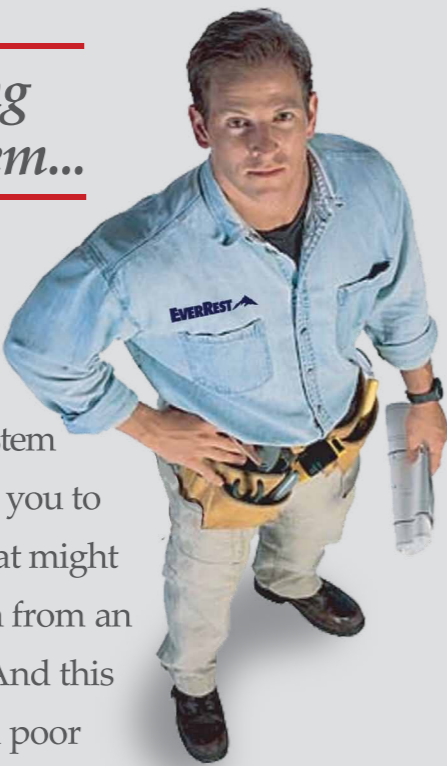

ExtremeCare® Performance Dealers have been trained to address these areas when installing your new system:

- Maximizing Comfort
- Minimizing Operating Cost
- Safe Operation
- Healthier Indoor Air
- Quiet System Performance

EverRest Elite Series® Air Conditioners. Guaranteed Performance For Your Home.

Your new EverRest Extreme Comfort® Home Comfort Equipment is covered by what we believe to be the best warranties in the industry... Guaranteed! Depending on the component, your warranty could cover from 10 years worth of replacement parts up to the lifetime replacement of the unit itself. Warranties apply to the original purchaser of the unit for as long as they live in their single-family residence. Warranties must be registered online within 60 days of product installation.* Be sure to talk to your EverRest dealer for all the warranty details that apply to your new equipment.

*To receive your warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec. Full warranty details are available at www.amana-hac.com

Only The Best Dealers.

EverRest Elite Series® home comfort systems are also installed by some of the best dealers in the country when it comes to installation procedures, product knowledge, and service after-the-sale.

EverRest dealers are hand picked, trained, and committed to giving each customer a super high quality product, a highly professional installation, "over-the-top" service and performance guarantees.

EverRest's history of quality stands way above the pack. Our equipment success rate is among the highest in the industry. Great equipment, great dealers and tip-top warranties... it makes the choice easy...EverRest!

EverRest Elite Series® Home Comfort Systems Are Backed By Warranties Among The Strongest In The Industry!

To give you long term peace of mind, every EverRest Elite Series® Home Comfort System is protected with a remarkably strong warranty. In fact, it's the industry leader. All EverRest Elite Series® 16 to 19 SEER R-410A air conditioners and heat pumps come with a **Lifetime Unit Replacement Limited Warranty** in addition to a 10 Year Limited Warranty on all remaining functional parts. We're proud to stand behind every EverRest Home Comfort System, so talk to your local EverRest dealer for all the details.

** To receive the specified warranties for your product, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.*

Lifetime Unit Replacement Limited Warranty

Environmentally Friendly R-410A Refrigerant

2-Stage UltraTech Copeland® Scroll Compressor*

Configured For The EverLink Control System*

*Available on most models

It's All About The Quality

Your EverRest Elite Series® 16 to 19 SEER Air Conditioner or Heat Pump System is built with the best quality materials, contains the latest technology and is designed to give you years of dependable service... no matter how hot the weather! It all starts with an ultra high-performance, Copeland® scroll compressor, many featuring the 2-stage Copeland® UltraTech scroll Compressor, which operates in tandem with our high-efficiency coil. And, these high-efficient units are now configured for our new EverLink Control System. EverLink is designed to allow your system's components to communicate with one another - and your local contractor - allowing for the optimum system performance and accurate detection of any possible system-related issue.

Very Efficient - Very Quiet

Every EverRest Elite Series® 16 to 19 SEER unit is built with a high-efficiency Copeland® Scroll Compressor - many with a 2-stage Copeland® UltraTech compressor. This compressor runs at low speed 80% of the time, which means it is less expensive to operate and gives more consistent comfort and better humidity control. We also engineer our 16 to 19 SEER units with sound-dampening features that help ensure that your system doesn't interfere with a good night's sleep. Add some extra sound deadening insulation and your EverRest Elite Series® Energy-Efficient unit will keep you cool and comfortable while staying quiet and ultra energy efficient!

16 to 19 SEER

"The Peak of Home Comfort"

Efficiency Defined

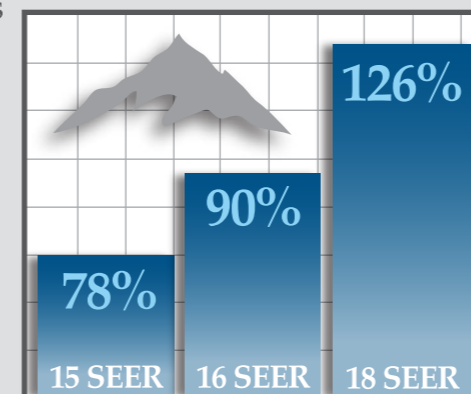

Your new EverRest Elite Series® Air Conditioner or Heat Pump System is designed for high-efficiency performance.

SEER stands for Seasonal Energy Efficiency Ratio, a measure used by the U.S. Department of Energy to rate the efficiency of air conditioners and heat pumps. The higher the SEER, the greater the efficiency and the lower the operating costs. Compared to the 10 SEER units found in many older homes, your ultra energy-efficient EverRest Elite Series® air conditioner or heat pump can provide significant savings on your electric bill.

Working Hard. Saving Money.

If your current system is 10 to 15 years old, the actual efficiency rating could have decreased by 16% to 20%. Even if you had a 10 SEER unit, a 16% loss would lower the efficiency to an 8.4 SEER. This means a new high efficiency air conditioner or heat pump could deliver up to a 126%* improvement in efficiency, which would basically cut your cooling cost more than half.

* (19 SEER - 8.4 SEER) / 8.4 SEER results in a 126.19% improvement in efficiency.

Potential Efficiency Improvement

Good For Your Home Good For Our Home

Your new EverRest Elite Series® Energy Efficient air conditioner can not only provide money saving cooling performance, which is good for *your* home -- but is charged with R-410A refrigerant, which is good for *our* home...Earth. R-410A does

not contain chlorine, and is specifically designed not to harm Earth's ozone layer. R-410A is approved for use in residential cooling systems by the U.S Environmental Protection Agency and is available in all EverRest Elite Series air conditioning units.

EverRest Elite Series® Air Conditioners & Heat Pumps

16 to 19 SEER Ultra-High Performance
