

A Tremendous Advantage When Purchasing an EverRest Extreme Comfort® System...

It's installed by an EverRest ExtremeCare® Performance Dealer.

You can purchase the best equipment in the world but if it isn't installed properly it can cost more to operate than that old worn out system you replace. Over the life of a new heating and air conditioning system

an inferior installation could, in fact, cause you to sacrifice over \$5,000 in utility savings that might have been realized with an installation from an ExtremeCare® Performance Dealer. And this doesn't even take into account how a poor installation can reduce the life of your new system, reduce the comfort and performance and cause unnecessary breakdowns.

ExtremeCare® Performance Dealers have been trained to address these areas when installing your new system:

- *Maximizing Comfort* • *Minimizing Operating Cost* • *Safe Operation*
- *Healthier Indoor Air* • *Quiet System Performance*

EverRest Extreme Comfort® Furnaces. Guaranteed Performance For Your Home.

The Heat Exchanger in every new EverRest Elite Series® furnace is covered by a Limited Lifetime Warranty. If the heat exchanger should fail on the original, registered owner, *we'll supply you a new furnace- FREE!* All remaining parts are covered by a 10-Year Parts Limited Warranty. So you can rest assured that you've made a wise investment in a home comfort system that will keep you warm and worry-free for many years to come! (Certain terms apply. Talk to your local EverRest Dealer for all the details).

Only The Best Dealers.

EverRest Elite Series® home comfort systems are also installed by some of the best dealers in the country when it comes to installation procedures, product knowledge, and service after-the-sale.

EverRest dealers are hand picked, trained, and committed to giving each customer a super high quality product, a highly professional installation, "over-the-top" service and performance guarantees.

EverRest's history of quality stands way above the pack. Our equipment success rate is among the highest in the industry. Great equipment, great dealers and tip-top warranties... it makes the choice easy...EverRest!

EverRest Elite Series® Home Comfort Systems Are Backed By Warranties Among The Strongest In The Industry!

To give you long term peace of mind, EverRest Elite Series® furnaces are protected with a remarkably strong warranty. In fact, it's the industry leader. All EverRest Elite Series® furnaces feature a ***Lifetime Unit Replacement Limited Warranty***, AND a 10 Year Warranty on all remaining functional parts. We're proud to stand behind every EverRest furnace... so talk to your local EverRest dealer for all the details.

**To receive the 10-Year Parts Limited Warranty and the Lifetime Unit Replacement Limited Warranty, online registration must be completed within 60 days of installation.*

Online registration is not required in California or Quebec.

High Efficiency Performance

Limited Lifetime Unit Replacement Warranty

10 Year Parts Limited Warranty

*Select Units Only

Up To
96% AFUE

"The Peak of Home Comfort"

Reliability And Long Life

Your EverRest Elite Series® furnace is built with the best quality materials, the latest technology and is designed to give you years of dependable service! These EverRest Elite Series® units have the only “Never Failed”™ Heat Exchanger in the industry. The patented Million Air™ stainless-steel tubular heat exchanger that’s in every EverRest Elite Series® furnace has been designed to deliver the highest money-saving efficiencies, minimize corrosion as well as virtually eliminate the potential for leakage! In fact, the reliability of these furnaces allows us to offer you a Lifetime Unit Replacement Limited Warranty with any EverRest High-Efficiency furnace you choose. (Talk to your EverRest Elite Series® dealer today for all the details).

Latest Technology

Many EverRest Elite Series® High-Efficiency Furnaces are now configured for our new **EverLink Control System**. EverLink is designed to allow your system’s components to communicate with one another

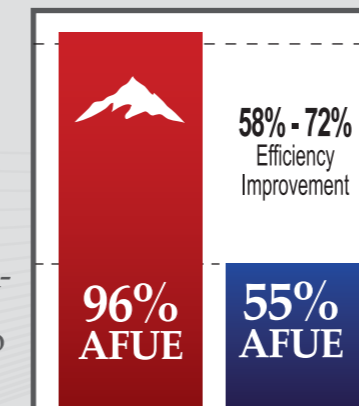

(as well as your local contractor) allowing for optimum system performance and the accurate detection of any possible problem related issue.

Efficiency Defined

AFUE (Annual Fuel Utilization Efficiency) measures the amount of heat a furnace actually delivers to your home...and these EverRest High-Efficiency furnaces deliver *up to 96 cents out of every energy dollar to directly heat your home!* And unlike many older, conventional furnaces, EverRest’s Elite Series® advanced 2-stage technology (in most units) helps eliminate the temperature swings that can result from abrupt stops-and-starts of the furnace - by operating at a low heating stage the majority of the time. This enables your new EverRest furnace to pleasantly raise the temperature inside your home. And if extra heat is needed on those really frigid days, this furnace will shift into high stage to quickly and efficiently warm your home to the desired temperature, then quietly shift back to low.

Working Hard. Saving Money.

If your current furnace is 10 to 15 years old, the efficiency rating is probably around 55-60% AFUE. Compare that to the 96% AFUE rating on select EverRest furnaces and you begin to get an idea of the potential savings. This means a new EverRest High-Efficiency furnace could deliver a 58% to 72% improvement in efficiency!

Potential Efficiency Improvement

*(96% - 55%) / 55% results in a 72% improvement in efficiency.

80% AFUE Furnace

Features

- Patented Stainless Steel Dual-Diameter Tubular Heat Exchanger
- 2-Stage Gas Valve
- Available with Super-Efficient, Ultra-Quiet Two-Stage Variable Speed or Energy-Saving Multi-Speed Circulatory Motor
